May 9, 2020 | Drawing With Sonia

BRIC teaching artist Sonia Kim leads you through two drawing exercises to explore line, color, and pattern.

YOU’LL NEED:
- Paper
- Drawing materials (markers, crayons, colored pencils, etc.)
- Your hands

INSTRUCTIONS:
- **Exercise #1:** Trace one finger anywhere on the page. Move the paper any way you like, and then trace two fingers two times. Allow the shapes of your fingers to overlap so that you fill up the page. Next, trace three fingers three times, and continue with four fingers and so on until you have filled up most of the page. Using your drawing materials, begin to color in the shapes any way you want. You can experiment with shading, color, and pattern to complete your drawing.
- **Exercise #2:** Choose two numbers that are both less than 10, either by rolling a die, asking someone, or using an app to generate the numbers. Add the two numbers together (for example, 5+2=7), and then fold your paper up that number of times any way you want. Your folds will make lines and shapes on the paper. Repeat again if you want. Find another random number, and then choose that many colors. Begin coloring in the shapes using your drawing materials until you have completed your drawing.
