BROOKLYN FREE SPEECH TELEVISION
FACILITY AND EQUIPMENT USE POLICIES

Intro to Brooklyn Free Speech Television
Brooklyn Free Speech Television, a community media program of BRIC, is made possible through cable franchise agreements that allow cable companies to operate in the City. The public owns these rights-of-way—the streets and sidewalks—through which all the cables run to the home. These rights-of-way are a very valuable public trust. In exchange for being allowed to run a profitable business on land that the public owns, the City receives a small percentage of the revenue and a number of public channels on the system.

The framers of the Constitution recognized that a healthy democracy demands a lively conversation about who we are as people and what we strive to be as community. Several decades ago, Congress created Public Access channels to fill the role of the Town Square in the electronic age. BRIC is proud to provide Brooklyn Free Speech Television to the public as a free, fair, and open space for community conversation and free expression.

How Can You Use BRIC's Brooklyn Free Speech Television Studios and Equipment?
If you’d like to use BRIC’s equipment and/or studios, edit suites or multimedia lab to produce your program, you’ll need to become a Certified Producer. A Certified Producer is trained to use the equipment and facilities to create programs for cablecast on Brooklyn Free Speech. Use of BRIC resources is for the exclusive purpose of producing Public Access programs for cablecast on Brooklyn Free Speech. Use of BRIC Media Center equipment or facilities for any other purpose is not allowed.

How to Become a Certified Producer
To become and remain a Certified Producer, follow these four steps:
1. Provide a current government-issued photo ID and proof of Brooklyn residency.
2. Attend a BRIC Media Education orientation session. Orientation is required for all anyone wishing to use BRIC Media Center studios or equipment, regardless of previous experience. Orientation gives an overview of policies and procedures. It is not designed to be a technical or training workshop. The orientation is a pre-requisite for all BRIC Media Education certification courses.
3. Attend and successfully complete the Field Production, Editing or Television Studio certification classes.
4. Volunteer on other Brooklyn Free Speech shoots as a studio or field crewmember.

Orientation and class schedules are available online at BRICartsmedia.orgME.

Using the Facilities
Certified Producers are eligible to use the equipment on which trained. There are no charges for equipment use, but there are a few rules aimed at making sure the experience is fair and fulfilling for all.
All graduates interested in using the BRIC Media Center to produce a program for Brooklyn Free Speech must be assigned a tentative program channel time. Simply submit a New Series Application or a Special Application. Once a time slot is assigned, reserve equipment use time by submitting a request form for:

- TV Studio A
- TV Studio B
- Mini Studio,
- Edit Suite, or
- Field Equipment

When applying for a channel-time slot, another Certified Producer may be listed as co-producer of the show. A Certified Producer may produce one show and co-produce one show, or may choose to co-produce two shows.

**Equipment Use Allotment System**

Producers receive an allotment of BRIC resources based on estimated time needs for each project. This allotment allows a Certified Producer to reserve and use BRIC Media Center equipment or facilities. For each 28-minute program, Certified Producers are allowed to use the equipment and/or studio on which they were trained for one of the following session areas:

<th>My Session Length to Produce ONE (1) Episode Is</th>

Programs are granted equipment allotments based on the frequency of cablecast. Reservations are made as each episode is completed. Unused allotments are non-transferable and may not be carried over.

Our reservation system will only allocate equipment use time as episodes are scheduled air-times by Programming. However, we recognize that a Certified Producer may have a single program or episode which uses a longer form, such as documentary film. Additional equipment sessions may be allotted on a case-by-case basis following a meeting with the Community Producer Liaison. This meeting will be for review of progress and submission of a production plan for approval.
