Third Law
(Work-in-Process)
By What Will the Neighbors Say?

Third Law is a metaphysical theatrical exploration, combining live performance with technology to grant the audience power over the destiny of the subjects they see on stage. Designed to interrogate audience agency, gaze and experience, Third Law aims to unpack the relationship between creator and observer by disrupting the traditional role of the audience.

Every action has an equal and opposite reaction. Including yours.

WHAT WILL THE NEIGHBORS SAY? | PRODUCTION COMPANY fights for a more empathetic world by presenting risky, provocative theatre that provokes conversations and facilitates greater understanding. Championing our community’s capacity to explore ambiguous and nuanced themes, we create morally complex genre-bending work that challenges our audiences before, during and after a presentation. Armed with the understanding that meaningful conversations require varied perspectives, we build Neighborhoods across borders to facilitate new connections throughout our communities. Since the company was founded, WWTNS? has premiered nine original plays in five cities in four countries on two continents, and presented a further nineteen. The company has launched our education and community arts departments, and created jobs for over one hundred artists - 75% of them femme/GNB identifying and 50% of them BIPOC. The Neighbors have received support from the NEA, the Brooklyn Arts Council, Bel Geddes, Creative Development Fund and A.R.T/New York, amongst others. wwtns.org
